MEMORANDUM FOR: Deputy Comptroller

FROM:

Legislative Counsel

SUBJECT: Authority to Recruit Additional Personnel

1. The Agency's FY 77 budget provides for an increase for this Office of three professionals and four clericals, in recognition of the anticipated increased workload of this Office and the fact that our onboard personnel resources have been heavily and increasingly taxed over the past three years.

2. At the present time, I have identified a young trademark attorney

I think he will do a very good job for us and I would like to start his processing immediately so that we can have him aboard before the Congress adjourns. I have also identified several likely candidates within the Agency and the IC Staff and in the Department of Defense, but I will be hampered in recruiting and will lose valuable leadtime unless I receive your approval to recruit against our FY 77 personnel ceiling.

3. This is to request approval to proceed with recruitment prior to the final action on our FY 77 budget which will probably occur sometime in August.
